Curitibanos

Located in the Santa Catarina plateau, Curitibanos has a population of about 40 thousand inhabitants.

The municipality is rich in history, culture and economy, and was the stage for important social movements such as the Contestado War and the Farroupilha Revolution.

Curitibanos

The city’s strategic location is an important source of wealth generation. As agriculture, wood and industry continue to expand, the city is now investing heavily in industrial plants and in the education sector, aiming at the sustainable development of the region.
